

Mrs Nester's Home Learning Weekly Challenge: 15th June 2020

If you and your family are football fans you might have heard that the first football match is to be played at the beginning of June between Arsenal and Manchester United. Do you have a football team that your family follows? Maybe you play football for a local team. If you do I am sure that you will have been missing playing with your team mates. If so then this week's challenge might help a little bit.

1. What do you know about the rules for football? Can you write a set of guidelines to explain how to play the game?

2. How many other games do you know that include a ball? Can you make a list of them all?

3. If you have a football team which is your favourite? Why do you like them? What is good about them? What skills do you think a footballer needs? Can you practise your football skills in the garden or park?

4. All teams have a kit. Can you design a football kit for our school? What colour do you think it should be? What would the logo on the shirt be like? I will be very interested to see your designs.
