

Mrs Nester's Home Learning Weekly Challenge: 22nd June 2020

Earlier this month you may have heard that it was World Ocean's Day. On the 8th of June we were all asked to think about and be more considerate towards our Oceans. Why do you think that was?

1. Why do you think we need a day to celebrate or think about our oceans? Why are they important and what is happening to them?

2. Can you mind map all the things that live in the sea? How long is your list?

3. Can you think of all the reasons that humans needs or use the sea? These people have built their homes in the ocean.

4. Do you think that people are being kind to the ocean? Who do you think needs it more, people or the sea creatures? Can you look through your recycling and see how much plastic you have? Can you make a mysterious sea creature out of the plastic and write a description of it? What would it's name be?
