30 January 2019

Dear Parents and Carers

The cold weather is keeping us on our toes at the moment. With extremely cold temperatures forecast for the rest of this week I would like to ask you to dress the children as warmly as you can. If this means that you need to choose clothing that is not school uniform I am happy for you to do so during this very cold time. Please layer them as much as possible and provide hats, scarves and gloves where possible.

If the weather forecast is accurate we may be getting snow on Thursday. At this time the 'best from the east' is set to arrive with us at the end of the week. As always the weather forecast may change as the week goes on. However, should the snow arrive and should we need to make any school closures all information will be posted on our Facebook page and school website. We should also be able to send a text. We will be contacting you remotely so please ensure that you have access to the internet or a mobile phone. Please remember that all of this communication is subject to technology working with us and at this time the school internet has been down for the last two days.

Closing school is never an easy decision. Our staff travel from all over the county and so it is never just as simple as making an assessment about what the weather is like in Street. I do understand that this will be very disruptive to working families but I know you will support us should we have to make the decision to make alternations to the provision for the pupils.

We will update with you with any further information as and when we have it.

Best Wishes

Kate Nester
